2. Requirements to content of the video

- 2.1. The video must demonstrate passing of the track meeting the criteria of the Rules (see section 2 of the Rules¹) performed by the robot meeting the criteria of the Rules (see section 1 of the Rules). The length of the track must be not less than 14 m. The track must contain all the elements of the track depicted on the Fig. 1.
- 2.2. Robot must complete the track (get from the start line to the finish line) during the time not exceed 60 seconds without an violation of the Rules (see section 3 of the Rules).
- 2.3. Task execution may be performed on the track having other sizes if these sizes and the proportional time (see paragraph 2.2 of this document) are clearly signed on the video.
- 2.4. Any kind of the video editing is not acceptable. The video must contain the frame with an A4 (or similar size) paper sheet which clearly shows the name of the team and the date of the shooting.
- 2.5. Team members must be depicted on the video.
- 2.6. The video duration must not exceed two minutes.

3. Change Log

- 3.1. Version 1.0 of this document was created at July 14, 2016.

¹ Hereinafter the Rules means “Line Pro” contest Rules, version 2.1 dated August 31, 2014.
